2025 Summer Escape Campaign Brief

Five-market integrated performance marketing campaign to capture peak-season demand · Issued 2025-05-12 · Owner: Growth Marketing

Document ID	WB-MKT-2025-014-EN	Version	v1.2 (Final, approved)
Campaign period	2025-06-01 – 2025-07-31 (booking date)	Total budget	USD 150,000
Target markets	US · Japan · Germany · UK · South Korea (5)	Classification	Confidential (internal only)

1. Executive summary

Wanderbricks sees booking demand concentrate in **peak season (check-ins in June–August and December)** every year. In 2024, check-in bookings in the four peak months were more than five times the off-season monthly average, and early-booking discounts from competing platforms are intensifying the race for demand. **Summer Escape 2025** aims to lock in summer peak-season bookings early across five key international markets during June and July.

- **Goal 1 — Booking volume: 1,750 bookings** across the five target markets during the campaign
- **Goal 2 — Net revenue: USD 122,000 in net revenue** across the five target markets (see Section 5 for the definition)
- **Goal 3 — Efficiency:** campaign ROAS of 0.8 or higher; new bookers at 40% or more of bookers in each market

> **Key message** — “Book early, travel light this summer.” The campaign runs in two waves: **Early Summer** (early-booking discount) in June and **Last Minute** (last-minute deals) in July.

2. Targets by market

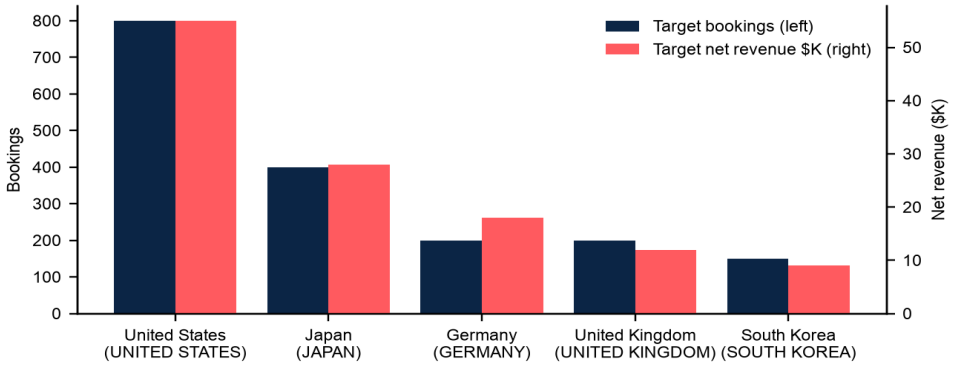

Markets are defined by the **booking customer's country of residence** (from the customer profile, not the property location). When aggregating data, use the country names in the ‘Data value’ column exactly as shown.

Market	Data value (country)	Target bookings	Target net revenue (USD)	Allocated budget (USD)	Target CPA
United States	UNITED STATES	800	$55,000	$48,000	$60
Japan	JAPAN	400	$28,000	$32,000	$80
Germany	GERMANY	200	$18,000	$22,000	$110
United Kingdom	UNITED KINGDOM	200	$12,000	$20,000	$100
South Korea	SOUTH KOREA	150	$9,000	$18,000	$120
Total	—	**1,750**	**$122,000**	**$140,000**	**$80**

Note: In addition to the $140,000 allocated to markets, a $10,000 reserve will be assigned to top-performing markets after the mid-campaign review.

3. Channel strategy and budget

Each market's budget follows the channel mix below. Japan runs a higher share of Yahoo! JAPAN search, and South Korea a higher share of Naver search and influencers, each 10 percentage points above the average.

Channel	Budget (USD)	Share	Key activities	Channel KPI
Paid search (SEM)	$45,000	30%	Google, Naver and Yahoo! JAPAN keywords	CPC ≤ $1.80
Social & influencers	$37,500	25%	24 travel creators on Instagram and TikTok	Engagement ≥ 4%
Metasearch & partners	$30,000	20%	Google Hotel Ads, airline partner banners	ROAS ≥ 3.0
CRM (email / push)	$15,000	10%	4 sends to dormant and returning customers	Open rate ≥ 25%
Retargeting	$15,000	10%	Visitors who viewed a listing but did not book	CVR ≥ 2.5%
Creative production	$7,500	5%	6 videos and 40 banners, localized	—
Total	**$150,000**	**100%**

4. Promotion codes

Market	Promo code	Discount	Conditions	Valid
United States	**SUMMERUS25**	10%	Peak-season (Jun–Aug) check-in, 2+ nights	2025-06-01 ~ 07-31
Japan	**NATSU25JP**	12%	Peak-season (Jun–Aug) check-in, 2+ nights	2025-06-01 ~ 07-31
Germany	**SOMMER25DE**	10%	Peak-season (Jun–Aug) check-in, 2+ nights	2025-06-01 ~ 07-31
United Kingdom	**ESCAPE25UK**	10%	Peak-season (Jun–Aug) check-in, 2+ nights	2025-06-01 ~ 07-31
South Korea	**YEOREUM25KR**	15%	Peak-season (Jun–Aug) check-in, 2+ nights	2025-06-01 ~ 07-31

Note: One use per customer; cannot be combined with other coupons. Discounts are deducted from the booking amount (total_amount) before settlement.

5. KPI definitions and measurement

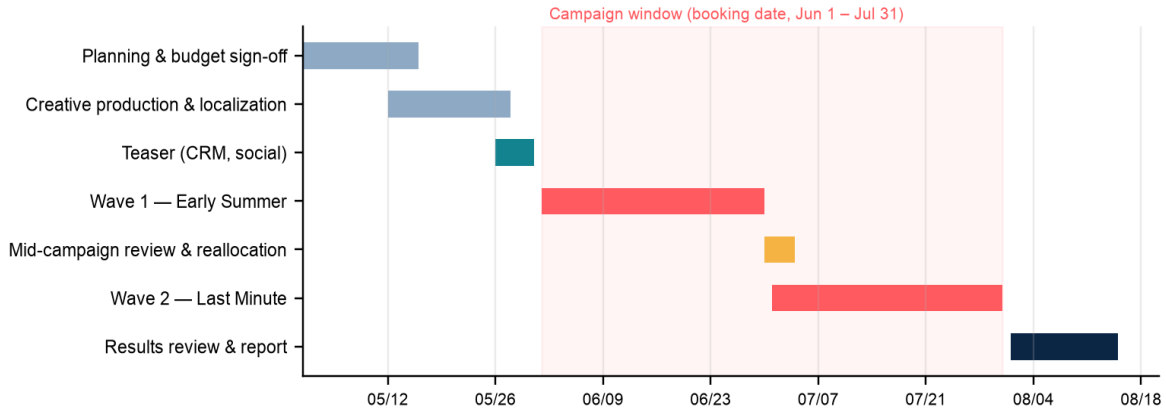

Performance is measured on the booking data registered in Unity Catalog (**silver_fact_bookings**; customer country from **silver_dim_users**) and compiled by the Growth Analytics team after the campaign ends.

KPI	Definition	Basis
Bookings	Bookings created during the campaign (all booking statuses)	Booking created date (created_at) 2025-06-01 – 07-31
Net revenue	Sum of total_amount for bookings with status **completed**. Excludes pending, confirmed and cancelled	Booking created date, by customer country
Cancellation rate	Cancelled bookings ÷ all bookings	Booking created date
New-booker share	Customers whose first booking falls in the campaign ÷ customers who booked	Per customer (user_id)
ROAS	Net revenue ÷ media spend	By market and channel

Caution — ‘Gross booking value’ (sum of total_amount across all statuses) includes unconfirmed and cancelled bookings and overstates actual revenue. Revenue targets and performance reporting for this campaign must always use **net revenue**.

6. Timeline

Figure 3. Campaign timeline

7. Risks and mitigations

Risk	Impact	Mitigation
Competitors discounting at the same time	Higher CPC, lower conversion	Shift 20% of budget to the best-CPA channels at the mid-campaign review
Refund & cancellation policy update (effective Jul 1)	July cancellation rate may change	Share weekly cancellation rates with the policy team (WB-POL-2025-007)
Currency moves (weaker JPY, KRW)	Local price competitiveness shifts	Higher discounts in Japan and South Korea (12%, 15%)

8. Performance reporting plan

Campaign results are shared on the schedule below, and all figures follow the KPI definitions in Section 5. Each market's target is judged **separately for bookings and net revenue**; a market is ‘on target’ only when both are at 100% or above.

Report	Timing	Contents	Audience
Weekly performance report	Every Monday	Bookings, media spend and CPA trends by market and channel	Marketing organization
Mid-campaign review	2025-07-01	Budget reallocation based on June results; reserve decision	CMO, Finance
Final performance report	2025-08-15	Attainment of bookings and net revenue vs. target by market, ROAS, lessons learned	Executive leadership (ELT)

Attainment	Rating	Follow-up
100% or above	On target	Priority budget for the next campaign
80% to below 100%	Near target	Adjust channel mix and continue
Below 80%	Below target	Submit root-cause analysis; consider reducing next budget

9. Approval

Step	Role	Department	Date	Status
Author	Growth Marketing Manager	Growth Marketing	2025-05-12	Done
Review	Head of Performance Marketing	Performance Marketing	2025-05-14	Done
Review	Finance Business Partner	Finance	2025-05-15	Done
Approval	Chief Marketing Officer (CMO)	Marketing	2025-05-16	Approved
